Local schools the biggest winners with Canteen Rescue

Colonial First State Global Asset Management (CFSGAM) is thrilled to announce the lucky schools who have won a \$40,000 Canteen Rescue makeover to transform their tired tuckshops into energy-efficient fresh food hubs.

CFSGAM shopping centres teamed up with the Children's Food Education Foundation and solar solutions provider Nu Energy in May to deliver Let's Live Better, a campaign aimed at educating children on the benefits of living a healthy, active lifestyle.

Let's Live Better gave schools thousands of reasons to increase their fresh food intake by offering the chance to win a comprehensive canteen makeover.

Schools earned a point for every dollar spent on fresh food at Colonial shopping centres throughout May and June – and the results of the healthiest schools are in!

First prize has been awarded to **Old Yarranlea State School** in Queensland, which participated at Grand Plaza Shopping Centre in Browns Plains. The school walks away with the following fantastic prizes:

- Eco-friendly Method cleaning product worth \$2,500
- Energy-efficient appliances from Harvey Norman to a value of \$5,000
- \$15,000 cash to fund the operation of a new canteen

In an amazing display of generosity, the small school of just 18 students chose not to fully accept the entire prize and instead will share their package with second-place Frankston Primary School.

Victoria's **Frankston Primary School**, through its involvement at Bayside Shopping Centre has won this amazing prize package:

- Solar energy package from NU Energy worth \$12,500
- Energy-efficient appliances from Harvey Norman to a value of \$5,000
- A consultation with a Children's Food Education Foundation ambassador to help create a fresh new menu – worth \$3,000

In the second group of schools, first prize goes to **Lockwood South Primary School** which shopped up a health-food storm at Bendigo Marketplace. This lucky school has won the complete Canteen Rescue prize:

- Eco-friendly Method cleaning product worth \$2,500
- Energy-efficient appliances from Harvey Norman to a value of \$5,000
- \$15,000 cash to fund the operation of a new canteen
- Solar energy package from NU Energy worth \$12,500
- Energy-efficient appliances from Harvey Norman to a value of \$5,000
- A consultation with a Children's Food Education Foundation ambassador to help create a fresh new menu – worth \$3,000
