CFSGAM/First State Investments (FSI) have a commitment to responsible investment and as such integrate environmental, social and governance (ESG) factors into the investment processes of our investment teams. FSI therefore fully support the World Health Organisation Framework on Tobacco Control adopted by the World Health Assembly and signed by 180 countries¹. FSI therefore will not invest our clients' capital in the securities (equity and debt) issued by the manufacturers of cigarettes and tobacco products.

2. Scope

All investment products across all asset classes managed by FSI will be subject to the Policy.

No new investment will be made into companies whose primary business is in the manufacture of cigarettes and other tobacco products with effect from 1st May 2019. Any current holdings will be fully divested on or before 31st December 2019.
